VANITIES

*Your Vanity*  
YOUR WAY

### Like a tailor-made vanity, without the wait

With five warehouses throughout Australia, all stock is readily available. This means you can create a custom-look vanity without the long lead time.

### Eco-friendly E0 board

Fienza cabinets are manufactured with highly water-resistant, 2-pac medium density fibreboard (MDF). The majority of our cabinet range is made from E0 grade board, which has 50% lower formaldehyde emission than the minimum Australian Standard (E1 board). This significantly reduces the risk of potential adverse health effects from formaldehyde, ensuring a safe product that can be installed and used immediately in the home.

### FSC certified

Our universal vanity cabinets are sourced from manufacturers that hold Forest Stewardship Council® Certification (FSC). This ensures that the raw materials used in our products are only sourced from sustainable, managed plantation forests.

### Australian made & recycled hardwood

Fienza's hardwood vanity tops are manufactured from reclaimed timber sourced from the demolition of old Queensland-style houses. Each top has its own unique look and is made from recycled Spotted Gum or Blackbutt hardwood.
